Marreddy Akshaya Varshini

9951829207 marreddywork@gmail.com linkedin.com/in/akshayavarshini github.com/mav01-code

Education

Institute of Aeronautical Engineering **Oct 2023 – May 2027 (Expected)**
Bachelor of Technology in Computer Science and Engineering - 8.9 CGPA(till 6th Sem) *Hyderabad, Telangana*

Narayana Pre-University College **June 2021 – Mar 2023**
PCMC (Physics, Chemistry, Maths and Computers) - 88% (12th Grade) *Bangalore, Karnataka*

Sri Chaitanya Techno School **Mar 2021**
GPA - 10 *Hyderabad, Telangana*

Relevant Coursework

- DSA
- OOP Concepts
- Information Security
- Database Management
- Artificial Intelligence
- Computer Networks
- Cloud Computing
- System Design

Internships

Nokia | *Student Intern* | *Bangalore, India* **Sep 2026 - Present**

- Working as an automation engineer to automate team's internal operations using Flask.

Examate.in | *Python Full Stack Training Intern* | *Chennai, India* **June 2026 - July 2026**

- Trained students on full-stack web development using Python, React, FastAPI, and MySQL.
- Assisted learners with debugging, code optimization, and project implementation.

Superherooo | *QA Testing Intern* | *Hyderabad, India* **March 2026 - June 2026**

- Performed exploratory testing and functional testing as part of Quality Assurance Team.
- Identified bugs and worked alongside CTO to ensure smooth user experience.

Projects

Dark Web Breach Monitor | *Flask, Have I Been Pwned API, MySQL* **March 2026**

- Developed a monitoring dashboard that helps users identify whenever their passwords are found in data breaches.
- Integrated Have I Been Pwned passwords API into Flask based web project and performed API testing through Postman.

Society Design | *FastAPI, React, MySQL* **January 2026**

- Developed a community management system using FastAPI and React to add society residents and generate QR that can be used as gatepass to pre-approve guests.
- Implemented service layer using ORM(sqlalchemy) and all the tables are normalized till 3NF.

Password Strength Checker | *Flask, HTML, CSS* **October, 2025**

- Password is taken as input from user and is processed to backend to determine strength.
- Strength is determined by factors such as length, uppercase, lowercase, special and numerical characters.

Technical Skills

Languages: Python, Java, SQL, JavaScript
Developer Tools: Azure, Amazon Web Services, Git & GitHub, Salesforce (Data Modelling), Jenkins, n8n
Technologies/Frameworks: Linux, FastAPI, React, REST APIs, MySQL, Postman, HTML, CSS, Bootstrap

Certifications

- DP-900 Azure Data Fundamentals — Microsoft
- AZ-900 Azure Fundamentals — Microsoft
- Postman API Fundamentals Student Expert — Postman
- NPTEL Domain Certification in Programming - Swayam (NPTEL)

Coding Profiles

- LeetCode
- GeeksforGeeks
- CodeChef
- HackerRank
